Key Performance Indicators Client Network and ARPA

Our client network continues to progress smoothly from onboarding initiatives, but the increase in clients and decrease in revenue have had a negative impact on ARPA.

Calculations until FY 2019/9 only included the number of clients with charges in the current month. However, due to the partial change of the pricing structure implemented in the first quarter of FY 2020/9, this number has been altered to reflect all clients and have adjusted the values for the previous years. The Client Network and ARPA do not reflect the effects of the acquisition of Kenbiya Co., Ltd.
